DETAILED ACTION

Statement of Reasons for Allowance

Claims 1-35 are allowed.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Martin et al. discloses a VCO control circuit (114) having a tuning range selector (204), counter (202) and delays (210 and 212). However, one of ordinary skill in the art would not have been motivated to have the delays to modify to be variable, as set forth in the claims (1-11, 28-35); none of cited reference discloses nor suggests the claimed invention including tuning range associated with predefined frequency at least one fewer tuning ranges than the total number of tuning ranges, as set forth in the claims (12-27).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
